Systema Software's SIMS Claims Implemented by Brentwood Services Administrators

Brentwood Also Expands Use of SIMS to Manage Professional Liability

Larkspur, CA – January 5, 2016 – Systema Software, LLC, a leading provider of claims administration software and services to the insurance industry, today announced that Brentwood Services Administrators, Inc. has fully implemented SIMS Claims™ to manage its workers' compensation, general liability, and auto claims, and expanded its use of SIMS to also manage its professional liability line of business.

For more than 20 years, Brentwood Services Administrators has served as a leading third-party administrator (TPA) for self-insured and large-deductible clients. Brentwood Services offers a unique combination of claims services with highly experienced staff, aggressive cost-control programs, and innovative best practices.

Jose Tribuzio, CEO of Systema Software, commented: "As a forward-thinking TPA, Brentwood Services set a vision to modernize and strengthen its claims operation. Finishing the implementation of SIMS and utilizing it to optimize workflow is a significant step in this strategy. With an architecturally strong platform, they now have access to powerful data reporting and business rules automation to enhance their service capabilities. It's a strong testament to SIMS that Brentwood also decided to expand the use of the system to an additional line of business."

"Claims expertise and excellent customer service have been key components to our success, and we wanted to complement our services with the cutting-edge technology in SIMS Claims," said

Jeff Pettus, President of Brentwood Services Administrators, "With SIMS in place, we now have an advanced claims solution, which gives us another advantage in today's competitive TPA market."

Eryn Crawford, Senior Vice President of Claims at Brentwood Services Administrators, added: "SIMS helps us to facilitate a timely and responsiveness claims process, giving our adjusters the tools they need to be focused and productive. With its intuitive user interface and elegant design, our adjusters have ramped up quickly and adopted SIMS in their day-to-day work life. By expanding SIMS into professional liability, we have an opportunity to further grow our business."

Steven Woods, Director of IT at Brentwood Services, added: "Throughout the implementation, Systema Software has been an engaged partner, helping us to tailor SIMS to meet the unique needs of our claims operations and client base. Now that we've gone live, we've been pleased with SIMS' performance in our claims environment. It's a highly scalable solution that has integrated well with our policy-issuance and other systems. We've begun to experience efficiency gains in IT maintenance and through our ability to share data across our enterprise. With this experience, we felt confident in expanding our vendor relationship."

About Systema Software
