Systema Software Selected by Millers Mutual Group

TCube Solutions to Serve as Systems Integrator Responsible for Managing Overall System Replacement Strategy for Millers Mutual

Larkspur, CA – December 3, 2013 – Systema Software, a leading provider of claims administration software and services to the insurance industry, today announced that Millers Mutual Group has selected SIMS Claims™ to manage claims within its commercial insurance programs, including property, liability, commercial auto, and workers' compensation.

Millers Mutual has a long legacy of superior commercial insurance programs delivered with a personalized approach. This includes unrivaled service, financial strength (A- rating by AM Best), in-depth product knowledge, and the ability to foster long-lasting business relationships.

Larry Fortin, CIO at Millers Mutual, commented: "SIMS Claims met all of our system requirements. It could successfully be implemented and integrated with our chosen policy administration system, and it has the functionality we're looking for to manage claims within our entire book of business. It also offered a modern look and feel and the flexibility of a highly configurable claims solution. Its advanced capabilities, including SIMS Mobile and integration with Microsoft products, will support our future business needs. In addition, Systema Software has a working relationship with our IT service provider, TCube Solutions."

Sam McGuckin, CEO of TCube Solutions, added: "As an independent third-party integrator, we strive to help our customers match their unique needs to the most appropriate solution available and then optimize their return on investment. We have worked with Systema on many customer projects and knew the company had a reputation of having a reliable support team, successful implementations, and happy, satisfied customers. As we move into the implementation phase,

our role will be to drive the integration of Millers Mutual's total solution, encompassing claims, billing, policy administration, reinsurance, and reporting."

Jose Tribuzio, CEO of Systema Software, said: "We look forward to working with TCube to serve Millers Mutual in implementing and integrating SIMS as part of their broader best-of-breed strategy. We feel confident SIMS will provide Millers Mutual with a powerful platform to drive claims-handling efficiency and enable its claims staff to deliver outstanding service to policyholders. With our agile implementation process, we'll be able to successfully put SIMS into production, so Millers Mutual can reap the value and benefits from our claims system sooner and with a greater level of satisfaction. We are committed to delivering SIMS with industry expertise and a superior level of service and support."

About Systema Software
